As a versatile individual with a background in equity trading and a transition to full-stack software engineering, I am passionate about creating captivating front-end designs and efficient back-end solutions. With strong problem-solving skills, a dedicated work ethic, and a drive for excellence, I consistently achieve outstanding results in collaborative team settings. Combining my competitive nature from division I track and field with the ability to foster teamwork, I excel at both individual and group dynamics. With a focus on quantitative analysis, self-motivation, and attention to detail, I am determined to thrive in Software Engineering. My interpersonal skills, innovative thinking, growth mindset, and ability to thrive in high-pressure situations will contribute to my success in this fulfilling career path.
